

## ***Kansas City Pediatric Cardiology***

### **Self-Pay Patient Payment Policy**

Kansas City Pediatric Cardiology (KCPCA) will assign charges for services rendered to self-pay patients according to its standard fee schedule. KCPCA will offer discounts to the self-pay patient based on the Medicare allowable fee schedule, assuming the patient pays the balance according to the payment guidelines established by KCPCA. If total payments are received in a timely manner, the balance will be adjusted using a "Self-Pay Payment Adjustment" code. KCPCA may not offer consistent discounts to any one group (I.E., KCPCA may not offer discounts to any plan members participating in a plan to which KCPCA does not participate).

#### **Office Visits and other applicable charges**

- When possible, balances less than \$250 should be paid in full at the time of service.
- Balances greater than \$250 should be paid in monthly installments of \$100 or more per month if possible.
- In cases where there is financial hardship, KCPCA will follow the Financial Hardship Policy that is in place.
- The self-pay discount will be applied only when all payments have been received. Patients must adhere to the agreed upon payment schedule in order to be eligible for the discount.
